DR. TUTT'S

ME WEDER HALL

IN 25 CTS. AND \$1 BOTTLES.

Its properties are Demulcent, Nutritive, Balsamic, Soothing and Healing. Combining all these qualities, it is the most effective LUNG BALDAM ever offered to sufferers from pulmonary diseases.

Dr. J. F. HAYWOOD, of New York, voluntarily indorses it. Bead what he says:

New York, Sept. 19, 1877.

Dr. Tutt: Dear Sir—During this year I treated nine hundred cases of lung diseases. In the lower wards of the city the cases were of a very severe type. It was there my sttention was called to Tutt's Expectorant, and I confess my surprise at its wonderful power. During a practice of twenty years I have never known a medicine to act as premptly and with such happy effects. It instantly subdued the most violent fits of coughing and invariably cured the disease in a few days. I cheeffully endorse it as the best lung medicine I ever used.

J. FIANCIS HAYWOOD, M.D.

A NEWSPAPER PUBLISHER WRITES:

Office Evening News, Augusta, Ga.
Dr. Tutt: Dear Sir—My little son was attacked with pneumonia last winter, which left him with a violent cough that lasted till within a month since, for the cure of which I am indebted to your valuable Expectorant. I had tried most everything recommended, but none did any good until I used your Expectorant, one bottle of which removed the cough entirely. With many thanks, I am yours truly. With many thanks, I am yours truly, JOHN M. WEIGLE.

HAD TERRIBLE NIGHT SWEATS.

Memphis, February 11, 1871.

Dr. Tutt: Sir.—I have been suffering for nearly two years with a severe cough. When I commenced taking your Expectorant I was reduced to one hundred and sixteen pounds in weight. I had tried almost everything; had terrible night sweats. I have taken halt dozen bottles. The night sweats have left me, the cough has disappeared, and I have gained fifteen pounds in flesh. I recommend it to all my friends. With great respect,

OLIVER RICE.

Suggestions for the Sick Room.

In preparing a meal for any one whose appetite is delicate, it should be made to look as tempting as possible. The tray should be ocvered with the whitest napkin, and the silver, glass and china should shine with cleanliness. There should not be too great a variety of viands, and but a very small portion of each one. Nothing more quickly disgusts a feeble appetite than a quantity of food presented at

one time. The patient never should be consulted baforehand as to what he will cat or what he will drink. It he asks for anything, give it to him, with the doctor's permission; otherwise, pre-pero something he is known to like and offer it without previous comment. One of the chief offices of a good nurse is to think for her patient. His slightest want should be auticipated and gratified before he he has had time to express it. Quick observation will enable her to detect the first symptom of werry or excitement to remove the cause. An invalid never should be teased with the exertion of making a decision. Whether the room is too hot or too cold; whether chicken broth, beet ten, or gruel is best for his luccheon, and all similar matters, are questions which should be decided without appealing to him.

Household troubles should be kept as far as possible from the sick room. Equabbles of children or servants never should find an echo there. In the event of some calamity occurring, of

which it is absolutely necessary the sufferer

should be informed, the ill news should be

broken as gently as possible, and cvery southing device employed to help him to boar the Above all, an invalid, or even a person apparently convalescent, should be saved from his friends. One garrulous acquaintance admitted for half an hour will undo the good done by a week of tender pursing. WAS SHE EURIED ALIVE ?- A terrible story is reported from a small station on the Owensboro' and Rus cliville Raifroad, near Livermore, Indiana. Mr. and Mis. Oakley, now residents of Virginia, arrived as their old home a few days sions for the purpose of removing the body of a daughter, which was bu-ried there a dezen years ago. When the coffin was opened the body was as perfectly preserved as on the day of burial, but to the parents' horrer the eyes were wide open and rolled up, and there was an agonized expression on the face. Ose hand was tightly clinched and the other wes clutching the felds of the dress. When the coffia was closed the child's hands were folded on its besom. It is supposed that she came too after being buried in a trance. The child was twelve years of age at the time of burisl.
